PROFESSIONAL SUMMARY

5th-semester BS Software Engineering student with hands-on experience in software development, database management, Linux/Bash scripting, and web application projects. Built academic systems include a full-stack POS application and a cloud resource management system using process scheduling and deadlock concepts. Strong foundation in OOP, SQL, SDLC, problem-solving, and practical software development.

EDUCATION

SZABIST — BS Software Engineering | 5th Semester

TCF College — Pre-Engineering

TECHNICAL SKILLS

Programming: C/C++, Java, Python, PHP | **Web:** HTML, CSS, React.js | **Backend:** Node.js | **Databases:** PostgreSQL, MySQL | **OS:** Linux, Bash, Shell Scripting | **Tools:** Git/GitHub, VS Code, IntelliJ, Arduino, MS Office | **Concepts:** OOP, SDLC, Normalization, Process Scheduling, Deadlock

TECHNICAL PROJECTS

POS System | React.js, Node.js, PostgreSQL (Neon)

Developed a full-stack Point-of-Sale system for retail suit management. Built the React.js frontend, Node.js backend, and PostgreSQL database, with database-driven product and sales management functionality.

Cloud Computing Management System | Scheduling & Deadlock

Developed a cloud resource management system using **FCFS, SJF, and Round Robin** scheduling algorithms. Applied deadlock concepts to model resource allocation and process-management scenarios.

System Health Monitor | Linux/Bash

Developed a Bash-based utility to automate CPU, disk, and memory health checks and manage file permissions.

Library Management System | SQL

Designed a relational database with 5+ tables for book tracking, member records, and automated fine calculations.

Billing Management System | Java

Developed a desktop application for managing product records and generating automated receipts.

IoT Smart Systems | Arduino

Created an Automatic Plant Watering System and Smart Dustbin using Arduino with ultrasonic and soil sensors.

EXPERIENCE

HR Intern | The Citizens Foundation (TCF) — Sept 2024 – Nov 2024

Assisted with HR operations and professional office management tasks.

Digital Marketer & Web Designer | Freelance — April 2024 – Present

Manage a personal website and SEO-based content strategy.

Teacher | Ideal Montessori School — Feb 2022 – April 2025

Integrated technology into classroom activities and supported student learning.

Transcription Intern | The Citizens Foundation — Aug 2026 – Sep 2026

Transcribed student and school principal interviews for the Digital Literacy Program under Zubina and Ashraib during a three-week internship in August and September.

CERTIFICATIONS & ACHIEVEMENTS

- **Query Quest — Certificate of Achievement** | SZABIST — 2026
- **Logic Design Competition — Certificate of Participation** | SZABIST — 2025
- **Web Designing Course** | IOBM
- **Digital Marketing Course** | NAVTTC
- **Web Designing Course** | Benazir Bhutto Shaheed Youth Development Program
